

Team ID	PNT2022TMID42563
Project Name	Plasma Donor Application
Title	Environmental Setup

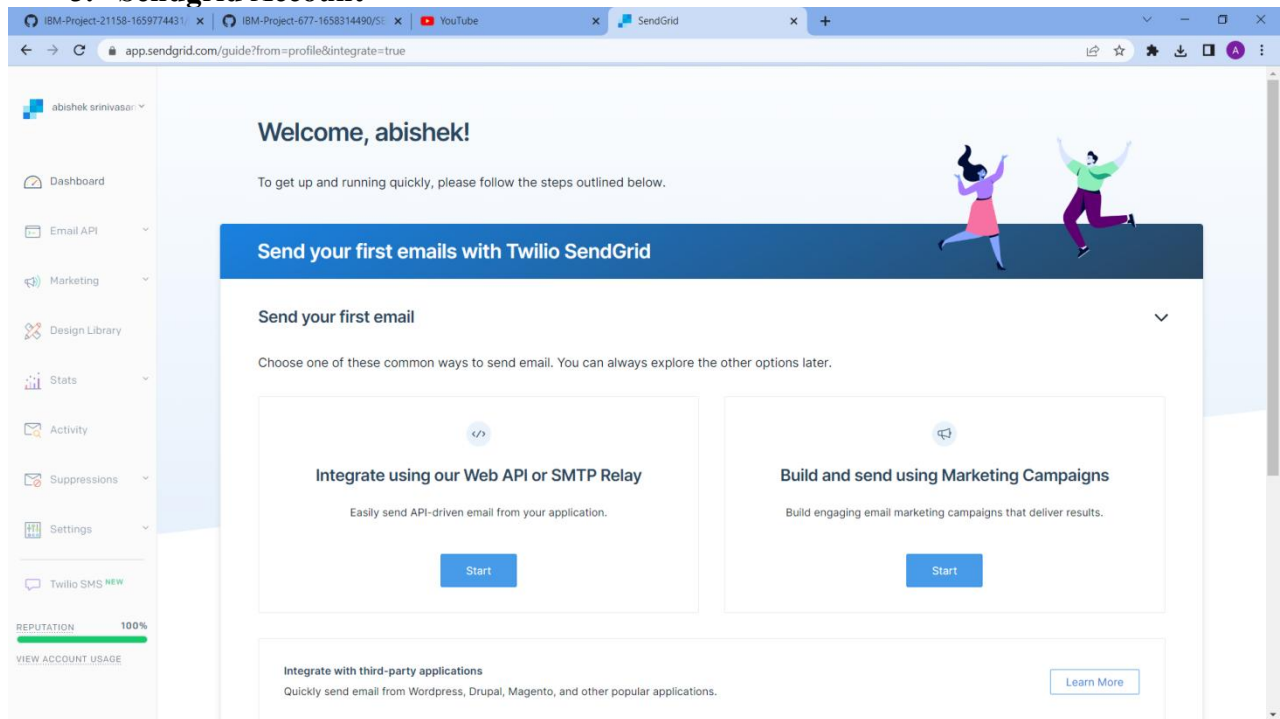

## 1. Creating IBM Cloud Account

The screenshot displays the IBM Cloud account settings interface. The main content area is titled 'Account settings' and includes sections for 'Account' (showing the user's name and ID), 'Account Type' (Trial, Free, with 396 days remaining), and 'Account upgrade'. The upgrade section presents two options: 'Pay-As-You-Go' with an 'Add credit card' button, and 'Subscription' with an 'Upgrade' button. A 'Need help?' link is also visible. The left sidebar contains navigation links for various account management tasks.

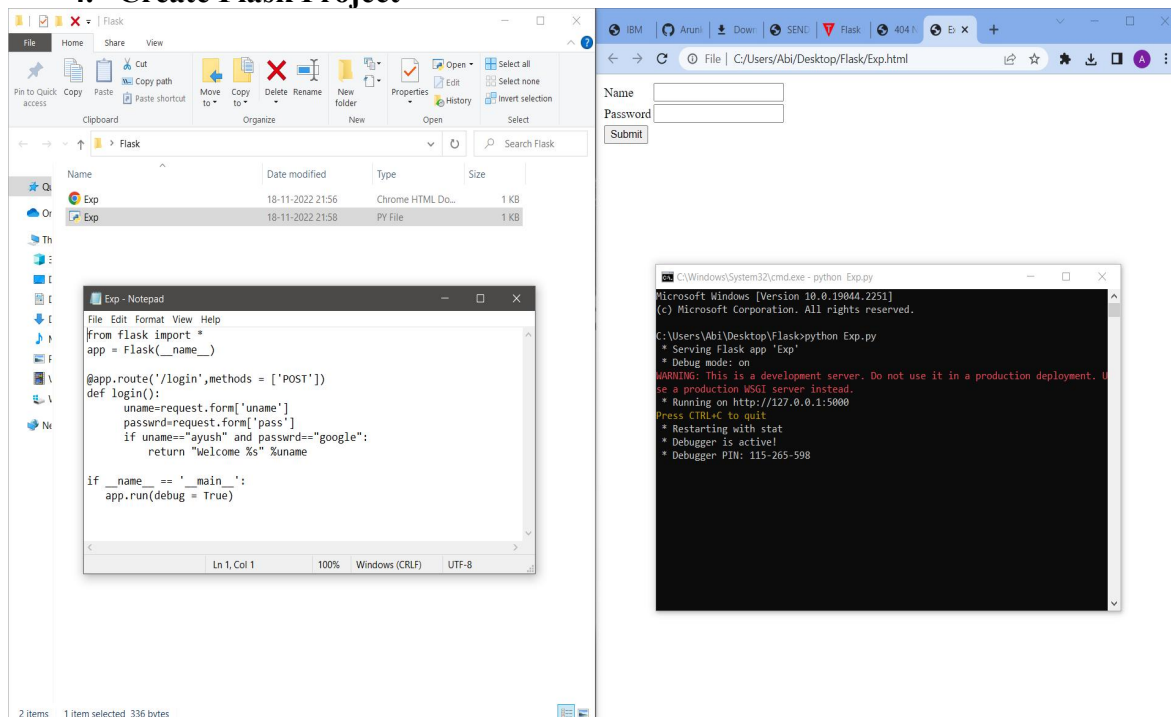

## 2. Docker Installation

The screenshot shows the Docker Desktop application window. The central panel is titled 'Run a Sample Container' and instructs the user to copy and paste the command `docker run -d -p 80:80 docker/getting-started` into a terminal. Below this, there are three 'Guides' for running sample containers: Redis, NGINX, and PostgreSQL, each with a 'Run' button. The bottom status bar indicates system resources and connection status.

### 3. Sendgrid Account

### 4. Create Flask Project

## 5. IBM Cloud CLI Installation

```
Administrator: Windows PowerShell
Code: BXIIIIM602E, message: The credentials you entered for the user 'abishya.2003@gmail.com' are incorrect.
Password:
Authenticating...
Credentials were rejected.
